Special Shoe Sale Saturday. Wallace Ballentine.

THE PLACE TO BUY YOUR HARDWARE

 WHY ?

BECAUSE a one-price-store must aim to keep prices right, and prices must be rock bottom in order to maintain the one-price system, also the one price to all is the correct principle in business—your neighbor's money is no better than yours, nor should it go any further in a purchase. The dealer must have his legitimate average profit and it is not right to make you must the difference your neighbor has been favored with in pay the difference your neighbor has been favored with in his purchase that goes to make up that average profit to

I have a full line of hardware and my goods and prices will bear the test, I am careful to buy the best, and in quantities and at such times as insures me the lowest prices; and I give my customers the benefit. I am in business to look after my customers' interests as well as my own—our interests are mutual.

on and repair, and the levy and col-t of assessments therefor.

An ordinance reintive to sidewalks, their construction and repair, and the levy and collection of assessments therefor.

THE VILLAGE OF YALE ORDAINS:
Section 1. All sidewalks hereafter to be built on Main street from Wood street north to P. M. R. R. and on south side of Mechanic street west from Main street to school grounds, shall be constructed of stone, flagging or cement or so-called artificial stone and shall be six feet in width. Main street south from Wood street to Mill street shall be five feet in width and all other streets or sides of streets not mentioned shall be four feet in width. If natural stone flagging be used, no flag stone shall be less than six square feet. Such flagging shall be laid upon a foundation of not less than six inches of clear sand which has been thoroughly rolled and rammed down, the stones to be evenly dressed on the sides and edges, the joints had close and the surface even and uniform. Cement walks, or so-called artificial stone, may be used and in such cases the following specifications shall be followed: Excavate to a depth of not less than nine inches below the surface, removing the soil, then fill to a depth of six inches below the grade line with bank sand, which shall be thoroughly tamped down. On this fill in to a beight of four inches below the grade line with coal ashes or screened gravel, to be well wet down, also thoroughly rammed. On this add four inches of grout made from mixed line and coarse gravel from which the sand has been screened, and the cement used shall be imported English Portland, or Bronson, or any standard cement, but if no case shall more than one kind of ement be allowed in the same walk. The grout to be thoroughly rammed. Fill in on top of grout to the grade line with some street, on west side of Jones street north from Wood street; on North street east to P. M. E. R.; on Kennifek street north from Mill street to Pine street; on Wood street, and one line thick on all other streets. This mortar to be uniformly spread and brought to grade line w

haid on any street or streets other than those move meationed. Any person who on, his own motion and at his own expense shall lay down a stone flagging or artificial stone sidewalk in accordance with specifications herewith contained, on application to the common conneil, will be allowed a sum of money equal to one third the cost thereof, but not to exceed three and one-third cents per square foot, on south side of Mechanic street from Main street to school grounds, the contell will allow a sum equal to one-half the cost thereof but not to exceed a cents per square foot, to be allowed on the certificate of the street commissioner as to the area thereof, and that in its construction the requirements of this ordinance having in all respects been complied with by the person making the application and a sworn statement of the person making the application and a sworn statement of the person making such application showing the cost of construction.

Section 2. All sidewalks hereafter to be built, except on the streets heretofore mentioned, may be half of tar and asphalt composition, to be laid to the established or required grade and in their construction the following specifications shall be strictly followed: Excavate to a depth not less than six inches and remove the surface soil. On each side of the walk set a straight edge extending to the grade line. Fill not row inches with coal ashes, leached wood ashes or fine screened gravel, then thoroughly ram and tamp down. On this foundation fill in to grade line with a mixture of coal, "dead oil," so-called, made from water gas, and Trinidad asphalt, made up of one part asphalt, two parts dead oil and seven parts coal tar, and prepare for use by heating first the oil, to which is added the asphalt, then the coal tar, stirring and well mixing the same and in no instance is the mixture to be used if it has been permitted to burn. This composition to be mixed with fine screened gravel, equal parts of each, then heated and uniformly spread and afterwards compressed by tho

Section 19. All of the maintenance and repair of sidewalks and the levying and collection of special assessments, and to defray the cost of same are hereby repealed.

Section 11. This ordinance shall take effect on the 24th day of June A. D., 1901.

Dated June 3, A. D., 1901.

walks.
Section 3. Any stone or artificial stone or far and asphalt composition walk constructed under and in accordance with the terms and requirements of this ordinance shall at all times thereafter be maintained, rebuilt and repaired by the common council out of any proper funds on hand belonding to the village of Yale, providing that the owner of the premises constructing such walk at the time thereof, shall have given notice in writing, describing the premises abutting upon and the street where such walk is hald that it is the purpose of such owner to surrender the care and maintenance of the other of the owner to pay two-thirds of the cost of such repairing or such re-construction when he shall have been served with a verified neconit thereof, and of such notice and purpose a record at length shall be made by the cierk of the village.

Section 4. Plank walks which have been heretofore built may be kept in repair and maintained by the owner of the premises abutting thereon. But such repairs shall be imited to the surface of such walks. Whenever the stringers of such plank walk shall have become unfit for use, the owner or occupant of the premises abutting thereon shall remove such walks and replace them with another and different walk permitted under sections one and two of this ordinance.

Section 6. Should the street committee deem it expedient to very from the foregoing specifications, to need certain conditions, they may submit any proposition in writing to the common council for consideration and action. If by resolution the council shall approve of the changes, work shall be done accordingly.

Section 6. Whenever any sidewalk shall be out of repair, or is deemed by the common council to be dangerous to the passers thereon, the common council to be dangerous to the passers thereon, the council of the same and do such other and necessary labor in contection with the same by grading, filling and otherwise as will place the street in a safe, it and proper condition for the work of necessary they shall so
